Dear Mr. Rochon:

The Synthetic Turf Council's Board of Directors met on August 20, 2009. It is my pleasure to report that the Board approved your application for STC certification, based on my recommendation as a result of my due diligence review of your application, and, most importantly, on your pledge to abide by the terms and conditions of the STC Certification Program Commitment Agreement, which I have signed and attached to this letter. I urge you to familiarize your colleagues and GTR Turf's non-employed representatives with its provisions.

Effective August 20, 2009, GTR Turf may represent that it is STC Certified to provide as a Systems Builder until August 2011, at which time it may apply to have its certification renewed for another two-year period. I have attached an electronic copy of the STC Certified logo. Also, I have asked the STC webmaster to identify GTR Turf as STC Certified on the STC website.

The Certification Program was established to give the end user and customer confidence that the STC Certified company will deliver as agreed its synthetic turf products and/or services that meet or exceed the STC's minimum quality guidelines, and that its employees and representatives will conduct themselves in accordance with the STC's code of professional and ethical conduct.

The Synthetic Turf Council and the synthetic turf industry benefit by having GTR Turf as an STC Certified member. Thank you and congratulations!

Sincerely,

cc: Joseph Motz, Chairman
