Office of the Headmaster

Mr. Luc Rochon
Team Rochon, Inc.
1965 de la Bretayne
St-Jerome
Quebec, Canada 25L – 1G1

Dear Luc:

On behalf of everyone here at Rye Country Day School, and especially our student-athletes, I want to thank you and your crew for your incredible effort with completing our new Fieldturf athletic field. After a summer of frustrating delays with the site work, we were quite worried about field availability for our field hockey and football programs. When the site work was completed on September 9, I expected the field would be installed by late September, which would have had a major, negative impact on our athletic program.

However, that was when Team Rochon arrived to literally “save the day.” Your crew was amazing, as they did not let hot and humid weather, the delayed delivery of the sub-grade, ill-timed rain, or a surveying error deter their positive attitude, teamwork, or professionalism. People here on campus were amazed to see the installation happen in just eight days. Needless to say, this spectacular new field has drawn rave reviews from our field hockey, soccer and football players and coaches. Our parents are also excited by this amazing development, and questions have been asked about the second Fieldturf field next summer. That project is currently in front of the Rye Planning Commission. We should know more about this possibility in the next two months. Of course, if all goes well, we hope that Team Rochon will be assigned to install the second field at our school. That would certainly give me great “peace of mind,” as it was a pleasure working with the hardworking, professional Team Rochon earlier this month.

Thank you again for **all** you and your crew did to make our “field of dreams” a reality in time for the fall 2005 athletic season.

Sincerely,

A handwritten signature in blue ink, appearing to read "Scott A. Nelson".

Scott A. Nelson
Headmaster
